The bad condition of the crossing corner Ninth and I streets southeast is complained of by citizens in that locality.

A colored man named John Alexander was thrown from a horse Thursday and received serious injuries about the head.

Mr. Joseph F. Page will next Tucsday move his grocery store from the northwest corner of F and Thirteenth streets to the old stand of Reed's Sons, 1216 F street.

The violation of any of nature's laws brings its warning by the feeling of discomfort. Exposure will induce colds, throat discases, consumption, &c., all of which give warning by a troublesome cough. Use Dr. Bull's Cough Syrup in time and remove both the cause and effect of your discomfort.

The Commissioners.

All three of the commissioners were at their offices yesterday, for a short time, although hey were invisible during the afternoon. Judge Edmonds was suffering from erysipeliss, and remained but a few moments. No "session" was held, and the waste basket formed the only source of all the news that could be secured. There is to be a "session" today.

A Handsome Stock of Organs. A Handsome Stock of Organs.

We do not know when we have ever seen a handsomer stock of Organs than at our neighbors, John F. Ellis & Co's, 937 Pennsylvania avenue, near Tenth street; and at prices so moderate and terms so casy as to be within the reach of everybody. They sell the Mason & Hamlin and other first-class makes of organs and we advise our readers who wish a good instrument to give them a call.

Building Permits. Building permits were issued yesterday to Nathan Sprague, to build one frame house on Columbia road, to cost \$150; G. Ruppert, to build two brick dwellings on G, between Twenty-second and Twenty-third streets northwest, to cost \$7,500.

No Private Drain Pipes With Sewers. In reply to a request from Dr. H. C. Brown the commissioners have notified him that they cannot permit him to connect the drain pipe of his house, on Seventeenth street, with the sewer, as the Boundary street sewer will be completed in a short time and will afford relief to the residents.

More School Buildings. It is expected that three new school buildings will be erected during the next fiscal year. The bill now before congress provides for the appropriation of \$86,000 and the sale of the Holmead cemetery property, and it is probable that \$35,000 will be secured from this source.

Don't forget Burdette's lecture, April 2, "The Pligrimage of the Funny Man."

A handsome eight-story brick and stone building will probably be creeted at the corner of Eleventh and F streets by W. B. Moses. The permit will be taken out shortly and the amount to be expended will be about \$95,000.

ARTIFICIAL TEETH WITHOUT

DR. C. L. ANDERSON,

Formerly Expert of the SHEFFIELD TOOTH CROWN CO., New York city, has removed to 515 Twelfth street N. W., having become associated with

DR. J. B. TEN EYCK.

By this arrangement I am enabled to devote myself exclusively to my Tooth Crowns and Artificial Teeth Without Plates.

THIS SYSTEM entirely obviates the necessity of extracting teeth, does away with artificial teeth, prevents the suffering caused by decay of the teeth, and consequent extraction of the roots (producing a change in the expression of the face and mouth), and avoids the pain and excessive annoyance of a plate.

By this method roots and badly decayed teeth which are firm in position may be restored to perfect usefulness and beauty, performing the office of mastication like the patient teeth.

ike the natural teeth.

IF BUT FOUR (or more) roots or teeth still remain in proper position we can attach an ENTIRE SET of teeth to them, restoring the expression, comfort, and usefulness without the use of a plate. These operations are comparatively painless; are PERMANENT, NATURAL, and CLEANLY, and those who have worn artificial teeth, and had this operation performed, testify to the cleaner, cooler feeling of the mouth, the restoration of the sense of taste, and their ability to thoroughly masticate food, with added comfort and increased health.

The crown work is a perfect and beautiful imitation of the natural teeth. It is most comfortable, there being no plate covering the roof of the mouth, so that after a few days there is nothing to indicate that the patient has not his or her own natural teeth. It is the most cleanly work, as every part can be easily reached with a brush, and the highly polished surfaces of gold and porcelain are without difficulty kept free from deposits, and performs the office of mustication like the natural teeth.
